OFFER OF SCHOLARSHIPS BY THE GOVERNMENT OF EGYPT TO INDIAN STUDENTS FOR STUDIES IN EGYPT ON RECIPROCAL BASIS.

Under their General Scheme of Cultural Scholarships the Government of India have allotted three scholarships to Egyptian students for studies in India. As these scholarships are, however, allotted on exchange basis only, the Government of Egypt have also decided to offer reciprocal facilities to Indian students and have accordingly intimated their desire to award three scholarships to Indian students for post graduate studies in Archæology, Philology and Agriculture with effect from the academic year 1950, at the University of Fouad 1st.

The value of the scholarship has been fixed at LE. 15 per mensem which corresponds to Rs. 205 per mensem exclusive of the tuition fees which will also be paid by the Government of Egypt. This amount is considered to be ample for all normal expenses of the students in Egypt including miscellaneous fees and hostel expenses, etc. The costs of passage either way and all expenses on journeys in India and Egypt will have to be met by the students themselves. The scholarships will be tenable for the period necessary for the student to acquire the degree in the course for which he is selected depending upon the satisfactory progress of the student.

Instructions in Egyptian Universities is generally given in Arabic. It is, therefore, necessary that the intending candidates must have a fair knowledge of Arabic. It will, however, be possible to make special arrangements to teach the Indian students through the medium of English in two subjects only, *viz.*, Archæology and Philology at the University of Fouad 1st but it is necessary for the candidates to have a good command of Arabic Language if they are to derive full benefit from their studies in Egypt.

Candidates must be *bona fide* residents of India and must possess a Bachelor's Degree in the subject concerned from a recognised Indian University.

Applications in triplicate from the intending candidates in the prescribed form may kindly be furnished to the Ministry of Education, Government of India, New Delhi, by the 30th April 1950, at the latest in order to enable this Ministry to make the selection in time.

SPECIAL RATIONS REQUIRED FOR PUBLIC FUNCTIONS, CONFERENCES, ETC., IN THE STATE.

Applications for special rations are, of late, being received in very large number from Organisers of Conferences proposed to be convened in the State, for various objects, while the requirements of rations for free-feeding in connection with examinations and religious and other functions are also on the increase. There is, besides, the additional commitment on account of the influx of refugees into the State and of the observed tendency for persons in rural parts managing somehow to attach themselves to urban rationing. At the same time, the position as to supplies of rationed articles is getting to be some what acute due to several factors, not the least of which being the non-compliance on the part of the Central Government to step up ceiling quotas to the State this year to cover our over-all deficiency in foodgrains. It is, in the circumstances, very necessary to conserve our resources by minimising the issue of special rations as much as possible. This is also in accordance with the austerity measures, which cannot perhaps be said to be as strictly enforced now as may be desired. Government will, therefore, be constrained to refuse requests for special rations which may be made in connection with the various meetings and Conferences in the State and also permission required under austerity rules, except on condition that no supply of rations will be made. Organisers of Public Functions, Conferences, Poor-feeding, etc., are therefore cautioned that, for any activities which they may undertake, they should depend on their own resources, as the Food Supplies Department will be unable to comply with requests for special rations.

A meeting of the principal employers of labour and officers of the labour department was convened in the Chambers of the Hon. Minister for Law and Labour this morning. The problem arising out of the out in electric supply was considered at the meeting and it was generally agreed that during the period that workers were played off for want of electric power, they should be given half wages and half dearness allowance. Such of the workers as were entitled to and desired to take advantage of the provisions under the holidays with Pay Act should be allowed to do so. The option to do so, it was agreed should be with the worker himself. This is to take effect from Monday the 8th instant and is to be in force till such time as it is altered. The whole position will be reviewed again in the middle of June next. This concession granted is *ex gratia* and is not to be treated as a precedent.

FOOD PRODUCTION DRIVE FOR THE FORTNIGHT ENDING 30th APRIL 1950 IN MYSORE STATE.

There is absolutely no hope of rescuing the standing crops of summer ragi and paddy under the Krishnarajasagar Reservoir. The low water level threatens to affect the ensuing monsoon crop as well. Cultivation operations and sowing of green manure seeds has not been possible in Srirangapatna, T.-Narasipur, French-Rocks and other Taluks. This will naturally affect the regular monsoon paddy crop. The general outlook is grave and unless we receive showers immediately, the food situation will deteriorate seriously.

With a view to rescuing as much of the standing crops of paddy and ragi as possible by installing water pumping sets to irrigate paddy crops by pumping water from wells, *madus*, etc., wherever possible, sixty Diesel oil engine sets have so far been purchased and rushed to the affected areas to save the standing crops. In spite of the best efforts, more than 5,000 acres of paddy and ragi have dried up.

The total area transplanted with summer ragi, paddy and jola in water receded areas up-to-date is as follows :—

Kar Ragi	...	1,756	acres
Kar Paddy	...	10,696	,,
Jola	...	1,303	,,
Bengal Gram	...	133	,,

Two hundred and four irrigation wells were completed in four districts and a sum of Rs. 1,96,480 was disbursed to the raiyats.

Two thousand three hundred and ninety-five acres of new lands were granted to raiyats for cultivating food crops in four districts.

Three more Collective Farming Colonies have been started. Tractor service has been given to plough up the lands before the monsoon rains set in and other cultivation operations taken up, on collective basis.

A Conference of Planters held under the presidentship of the Deputy Commissioner, Hassan District, discussed the possibility of Tapioca cultivation, in the malnad areas of Hassan District and it has been resolved to cultivate at least 300 acres of Tapioca this year in that district under the supervision of a qualified Agricultural Inspector.

Government have recently sanctioned an estimate amounting to Rs. 1,30,000 for Lift Irrigation on the left bank of Shimsha in Maddur Taluk. The Superintending Engineer, Cauvery Circle, has been requested to push through the work expeditiously. One new work has just started in Honnali for [illegible] River to irrigate 70 acres.

In Tumkur District, four big works which are intended to benefit 4,091 acres of additional lands are under various stages of progress. In the case of Honnamachanahalli Tank in Kunigal Taluk, the entire area of 80 acres will be brought under irrigation before this monsoon season.

The two works taken up in Bangalore District are in progress and may be completed soon. All the Executive Engineers have been requested to draw up a comprehensive programme for desilting of tanks.

In Tumkur District, two works are taken up which benefit an area of 70 acres.

Some plots in the acquired area near the Birwal Colony have been allotted to the labour class employed at the above works for the cultivation of kar ragi. Nearly 50 acres of lands have been ploughed and fifteen acres have been transplanted with ragi.

Eight hundred and thirty-two tons of iron and steel (cart materials and flats required for country plough points) were procured and distributed to all the Multipurposes Co-operative Societies; 89 tons of groundnut oil cake and 2,000 tons of ammonium sulphate were procured and distributed to the above societies.

The following quantities of foodgrains were procured during the fortnight :—

Paddy	...	31,545 pallas
Ragi	...	44,613 "
Jola	...	599 "
Other grains	...	811 "

To prevent damage to crops by wild animals, 35 more gun licences were sanctioned in Shimoga District, bringing the total sanctioned from the beginning of the year to 684. There was stray occurrence of paddy stem-borer in Bangalore District, case-worm in Tumkur and Mysore Districts and blast in Tumkur District. Total area affected is less than 200 acres and timely preventive action has been taken by the Department of Agriculture.
